Valentine Safety Tips

Valentine's Day - a day for Romance and Love. It can also be a dangerous time with careless mistakes and unheeded dangers.

Fireplaces and Bonfires. A warm fire on a cozy night is wonderful. Make sure you keep an eye on the fire.

For outside fires, keep water or some way to douse the fire handy, and make sure your fire is clear of debris (leaves, grass, etc.).

Inside Fireplaces - make sure your clothing, blankets, pillows, etc. are all far enough away. Check your fireplace before the big day - make sure the ventilation is working.

Candles - Lovers love candles! Keep an eye on them - watching for drippings or candles that are bending over about to fall out of their containers. Remember to blow them out.

Leaving for a big date or for a long weekend? Remember your normal security routine.

Set timers on lights and radios or TVs to create the illusion that someone is home.

Ask the neighbors to collect your mail and newspapers.

You're excited to be going out - but remember to check all the locks and windows. Set the alarm.
